UNIEKE WATERTROG / TENK KOMBINASIE UNIQUE WATER TROUGH / TANK COMBINATION

Watertenk:
1650l

Trog: 250l

- Vervaardig van poli-etileen - skuim word bygevoeg.
- Uitgevoer met swart voering om die binnedring van UV strale en algegroei te verhoed.
- Geskik vir alle soorte vee, insluitende bees, skaap, perd, emo, volstruis, ens.
- Watervlakke word konstant gehou deur die vlotterkleppe in beide die watertenk en trog.
- Vlotterklep in watertrog word beskerm teen die moontlike vertrapping deur dors diere.
- As die tenk vol is, hervul die watertrog binne 7 minute.
- Water bly koel as gevolg van die skuim wat bygevoeg is.
- Medikasie en voedingstowwe kan by die tenk gevoeg word.
- Manufactured from polyethylene - foam has been added.
- Has a black lining to prevent penetration of UV rays thereby preventing the growth of algae.
- Suitable for cattle, sheep, emo, horses and ostrich, etc.
- Constant water levels due to ball valves in both water tank and trough.
- Ball valves are protected from thirsty animals and are also baboon-proof.
- When the water tank is full, the trough refills in 7 minutes.
- The water stays cool because of the foam that has been added.
- Medication and nutrients can be added.

Water Trough
